SMART FLIGHT SCHEDULING

FltPlan.com

360° Coverage from Initial Trip Requests to Post-Flight Reporting

Master your flight scheduling with FltLogic, the only scheduling program that integrates with FltPlan.com. FltLogic offers a comprehensive suite of features from trip requests and approvals to flight planning and post-flight reporting to meet your complex and
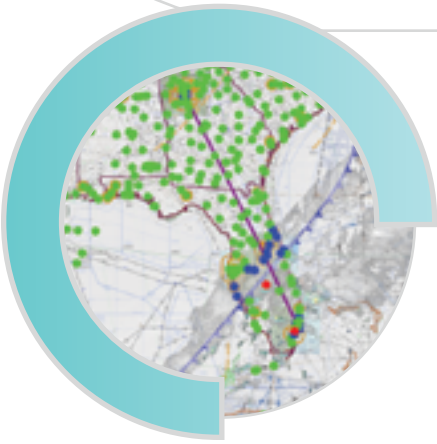

CALENDAR

- Choose Monthly, Weekly, or Daily Views
- Custom color code the calendar by aircraft and type of event for easy reference
- Additional calendar views to see all events for one user or one aircraft
- Calendar Only permission to easily see aircraft availability

PRE FLIGHT

- Create and edit single or multi-leg flights, training, maintenance, and other events
- Create and manage aircraft profiles, including type, color and performance data. Aircraft performance ensures the arrival airport can accommodate your aircraft and the selected crew members are available
- Repeat Event option saves time when entering frequent or recurring events. Events can be repeated for up to six months
- Pilot, crew, and passenger information can be carried over when adding additional legs to a scheduled event

- Quick Change option allows for last minute crew and passenger modifications. Changes can be applied to multiple trip legs at once
- Event creation automatically triggers creation of a preliminary flight plan in the captain's FltPlan.com account
- Event alerts indicate issues such as double bookings, exceeded flight time, or insufficient runway length for selected aircraft at the designated arrival airport
- Additional alerts for duty time violations if the Duty Time function is used
- Scheduler can push a new event notification to all parties assigned to a trip. Schedulers, crew, and passengers who have logged into the FltLogic iOS app will get automatic notifications about new events, as well as event reminders four hours prior to flight
- Search for airport and FBO information or view and book hotel, rental car, catering, and limousine reservations
- Assign departments by user and by leg

📅 CC Flight Check SW
Aircraft: N406BJ-B
Start: 01/31/2018 07:00 (UTC
End: 01/31/2018 13:24 (UTC

7a - 1:24p CC Flight Check

View trip details, send trip sheets, and edit events from the calendar. Filter your calendar view by aircraft or pilot, and day, week, or month.

View your route with a variety of base maps and weather overlay options in FltPlan's Map Builder.

POST FLIGHT

- Pilot Log Sheet for post flight reporting can be completed on the FltLogic website, submitted through the FltLogic companion app for Apple and Android Devices, or printed to be manually given to the pilot

- Track block and flight time, approach, takeoffs and landings, night and instrument hours, fuel burned and purchased, APU, airframe hours and cycle tracking, and HOBBS Time

- Photograph or upload receipts and/or track expenses by user or by aircraft for reimbursement after a trip

- Pilot Duty Time Report - updated with post-flight reporting to show PIC hours, SIC hours, night hours, IFR hours, IFR approach, day takeoffs and landings, night takeoffs and landings, Part 91 or Part 135, remarks

LOCATIONS

- Quickly reference airport and FBO information on FltPlan.com - details like customs services, frequencies, charts, and other information can be instantly accessed on FltPlan.com

- Add your private hangar information for your home airport

- Fuel information and pricing is immediately available on FltPlan.com

FltLogic integrates with FlightBridge™ for hotel, rental car, limousine, and catering reservations.
