**connx™** USE ANDROID'S GPS

Status: CONNECTED

Last Update: 15:17:57

Battery Status: 0%

Heartbeat: —

GPS: Using ADS-B GPS

Product Name: Flight Stream 210 EAB2

Product Firmware: 2.50

Serial Number: 3RE006535

Route Update:  Off  Auto  Prompt

Latitude: 41.27986

Longitude: -73.57841

Altitude (m): 10668.00

Course: 105.90

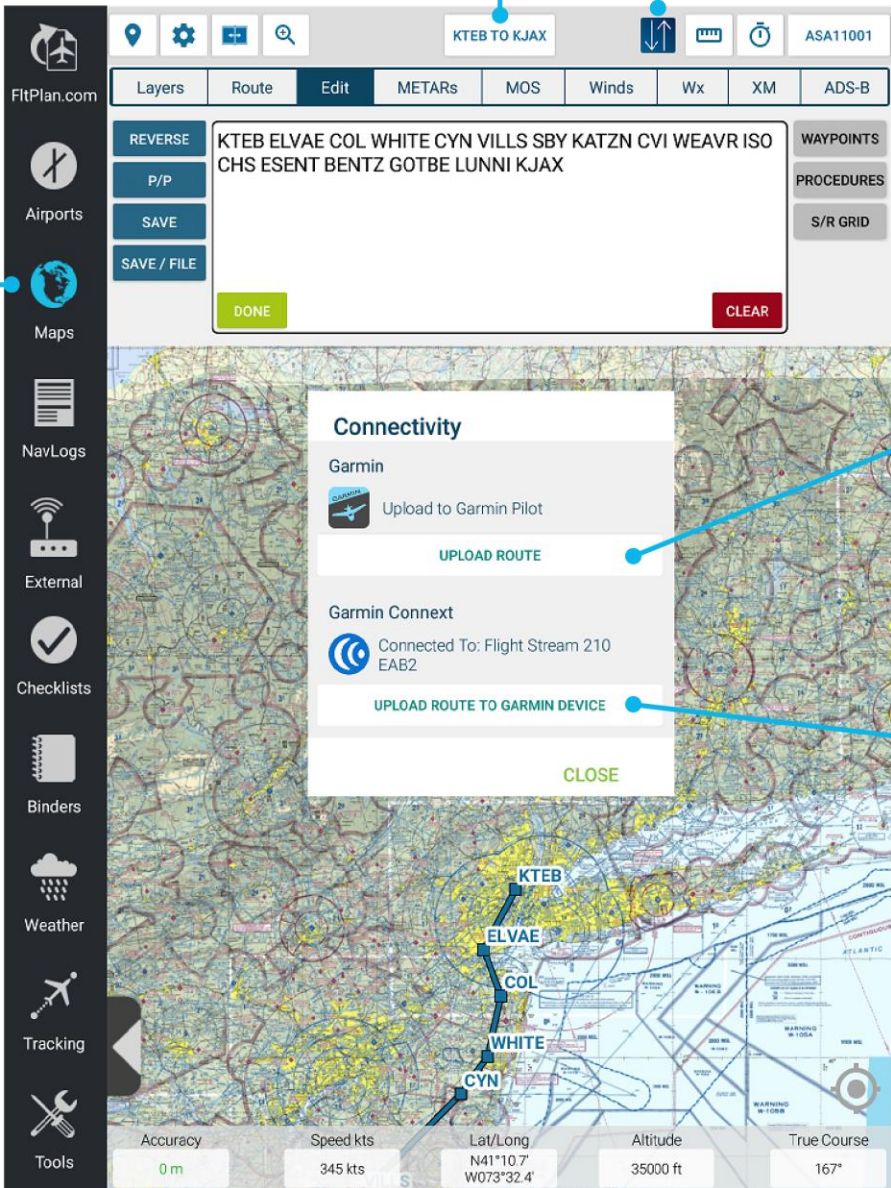

Speed (m/s): 35.65

Pitch Degrees: -2.76

Roll Degrees: 357.48

Heading Degrees: 56.02

## Garmin Connectivity and Flight Plan Transfer

The screenshot displays the FltPlan Go app interface. At the top, a route is identified as "KTEB TO KJAX". Below this, a menu includes options for Layers, Route, Edit, METARs, MOS, Winds, Wx, XM, and ADS-B. The "Edit" menu is open, showing a list of waypoints: KTEB ELVAE COL WHITE CYN VILLS SBY KATZN CVI WEA VR ISO CHS ESENT BENTZ GOTBE LUNNI KJAX. Buttons for REVERSE, P/P, SAVE, and SAVE / FILE are visible, along with DONE and CLEAR buttons.

On the left side, a vertical toolbar contains icons for Airports, Maps, NavLogs, External, Checklists, Binders, Weather, Tracking, and Tools. The "Maps" icon is highlighted with a blue circle and labeled "Step 4: Select Maps".

At the top center, a blue circle points to the "KTEB TO KJAX" text, labeled "Step 5: Select Route". To its right, another blue circle points to a connectivity icon (two arrows pointing up and down), labeled "Step 6: Select Connectivity".

A "Connectivity" dialog box is overlaid on the map. It shows "Garmin" with an "Upload to Garmin Pilot" option and a green "UPLOAD ROUTE" button. Below that, it shows "Garmin Connect" with "Connected To: Flight Stream 210 EAB2" and a green "UPLOAD ROUTE TO GARMIN DEVICE" button. A "CLOSE" button is at the bottom of the dialog.

Two blue arrows point from text labels to the "UPLOAD ROUTE" and "UPLOAD ROUTE TO GARMIN DEVICE" buttons. The first label says "Tap on Upload Route to transfer flight plan to Garmin Pilot." The second label says "Tap on Upload Route to Garmin Device and flight plan will transfer."

At the bottom of the screen, a status bar displays flight data: Accuracy (0 m), Speed kts (345 kts), Lat/Long (N41°10.7' W073°32.4'), Altitude (35000 ft), and True Course (167°).
