

FOR IMMEDIATE RELEASE

## FitPlan Go Now Includes Stratus 3 Compatibility

Southbury, CT – July 20, 2018. The latest version of FitPlan.com’s free FitPlan Go EFB app includes Stratus 3 ADS-B compatibility, allowing FitPlan Go users to display traffic and weather – including NEXRAD radar, METARs TAFs, and NOTAMs – on any Android, iOS, or Windows device.

The addition of the Stratus 3 to FitPlan’s extensive ADS-B connectivity options gives FitPlan Go users wide-ranging flexibility in choosing an ADS-B receiver for their aircraft. “We are thrilled to add the Stratus 3 ADS-B receiver to our list of compatible products. FitPlan users have consistently asked us for Stratus connectivity and we are certain that this will be a popular addition to FitPlan Go for our users,” said Sarah Wilson, Principal of FitPlan. “Appareo’s reputation for quality and reliability, combined with the features of the Stratus 3 make it a great option for FitPlan users looking to purchase a portable ADS-B receiver.”

FitPlan Go is FitPlan's free companion EFB app and offers a range of flight planning and filing tools and features that integrate with the FitPlan.com website. The FitPlan Go app is available for iOS, Android, and Windows devices. App versions that include Stratus 3 compatibility are iPad 4.7.10, iPhone 4.7.10, Android 4.9.2, and Windows 2.6.10.

Appareo is offering the Stratus 3 at an introductory price of \$699, and including an industry-leading 2-year warranty. “As a long-time FitPlan user myself, I am excited to have the new Stratus 3 receiver integrated with the FitPlan Go app,” said Appareo Aviation President Kris Garberg. “All FitPlan Go users can now experience the proven Stratus performance in delivering reliable GPS, weather, and traffic.”
