

OPTION 1

FltPlan Manager

A I R C R A F T

How It Works

- Combines all pilots into a single, central corporate account.
- Separate FltPlan accounts are created for each individual aircraft.
- The primary administrator of the account has access and control of all users and aircraft within the account.
- Individual users manage trips by aircraft using the appropriate aircraft account.

Benefits of Option 1

- Perfect for flight departments who have dedicated mobile devices for each aircraft within their fleet.
- Offers pilots the flexibility of logging in to aircraft accounts from any device using FltPlan.com or from the FltPlan Go app.
- No hidden fees or in-app purchases required.

Administrative Features

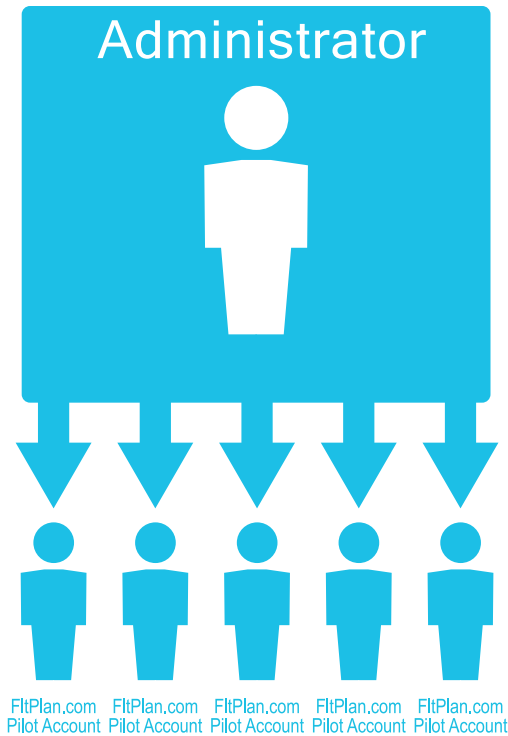

- Easily add or remove pilots from the corporate account.
- Live track all account aircraft in FltPlan's Map Builder. Customize to show sectional, high altitude, and other base layers as well as NEXRAD radar, winds aloft, TFRs, SIGMETs, color-coded METARs, etc.
- Administrator controls performance and ICAO data for each aircraft.

For additional information, call 203-262-6020

OPTION 2

FltPlan Manager PILOTS

How It Works

- Corporate account allows administrator to access all information within pilots FltPlan accounts.
- The primary administrator of the account has access to and can control all FltPlan user accounts.
- Pilots retain their unique FltPlan user account for trip management.

Benefits of Option 2

- Because pilots retain their existing FltPlan account, set up is quick and easy.
- Pilots manage their own accounts.
- No hidden fees or in-app purchases required.

Administrative Features

- Easily add or remove pilots from the corporate account.
- Live track all account aircraft in FltPlan's Map Builder. Customize to show sectional, high altitude, and other base layers as well as NEXRAD radar, winds aloft, TFRs, SIGMETs, color-coded METARs, etc.
