## FitPlan's Pilots' Choice Awards Voting Starts February 1, 2016

*SOUTHURY, CT – January 12, 2016*–Voting in FitPlan's 2016 Pilots' Choice Awards starts on February 1. The survey, which is in its seventh year, recognizes top U.S. FBOs (Fixed Base Operators), top U.S. FBOs by region, small and large FBO chains, Canadian, Caribbean and Mexican FBOs, ATC Centers, ATC Towers, and U.S. Customs & Border Protection facilities that serve U.S. Airports.

Voting in the 2016 Pilots' Choice Awards survey is open to FitPlan's 157,000-plus active, registered users. The Pilots' Choice Awards recognizes FBOs that provide arrival and departure services for private and business aircraft at more than 5,000 U.S. airports. FitPlan allocates one ballot per pilot per user account. For example, a FitPlan user that has 10 pilots in its account receives 10 ballots. Voting ends on March 31, 2016.

"The Pilots' Choice Awards is a pilot survey, not a reader survey. No other FBO survey can make that claim," said Ken Wilson, president of FitPlan. "Because pilots are the people who use the FBOs, they are best able to judge the quality of the FBO services that they receive."

In 2011, FitPlan added two new awards, Star FBO and ACE FBO. Star FBO Awards are based on airport arrival data and the amount of competition on the field. The ACE FBO category recognizes FBOs who received the most votes at airports with fewer arrivals, allowing some of the smaller FBOs to receive accolades for great service.

**About FitPlan.** FitPlan was established in 1991 and has grown into the largest flight planning company in North America. More than 157,000 registered users file more than 50% of all N#-registered flight plans – more than 70% of all N#-registered flight plans for jets and turboprops. The free FitPlan Go app for iOS, Android, and Windows is an indispensable companion to the FitPlan.com website and incorporates essential and beneficial features and tools for in-flight and offline use.
